    - Implemented **responsive** and **interactive** features by translating UI/UX wireframes and mock-ups.
    - Design and maintain **coding standards** to enhance **user experience**.
    - Participate in team-wide **code reviews** and provide **feedback**.
    - Performed user **testing** and **troubleshooting** before deployment.
    - Collaborated in a team environment using **Agile methodology** to work with colleagues.

- **Web Designer**   *Jan 2016 – Sept 2017*
  Silverwing Technologies PVT LTD, Ahmedabad, Gujarat, India
  Technologies: **HTML, CSS, JavaScript, Bootstrap**
    - Closely Involved in **requirements gathering**
    - Implemented variety of **responsive frontend** design utilising HTML, JS, and **Bootstrap** framework according to the client needs.
    - Translated wireframes and mock-ups into high-quality, responsive, well-performing code.
    - Developed **responsive** website and **deployed** it on **server** using coding standards.
    - Improved website performance by refactoring old un-optimized code and changing it to follow proper standards.
    - Worked on **bug fixes** and resolved several issues as well.

Technical Skills

- **Web Technologies:** TypeScript, JavaScript, Angular, ES6, Bootstrap, React JS, SASS, NPM, GraphQL, AJAX, JSON, HTML5, CSS3.
- **Programming Languages:** Java, C, C++, PHP
- **React Concepts:** Router, Props & PropsTypes, States, Hooks, Query
- **Core Concepts:** MVC Architecture, OOPS Concepts, Responsive Design, Design Patterns, RDBMS, Software Development Life Cycle
- **Database:** Firebase, MySQL, SQL, SQLite, Mongo DB
- **Software Methodologies:** Scrum, Agile methodology, Waterfall
- **Testing & Version Control:** Git, GitHub, GitHub Desktop, Jira
- **Operating Systems:** Windows, Ubuntu, Mac
- **IDEs:** VS code, Android studio, Eclipse, IntelliJ, NetBeans
- **Software Tools:** Photoshop, XD, Premiere pro, MS Office, Trello Board, Creative Cloud, Visual Paradigm

Education

- *Mobile Application Development*   *Jan 2020 - Aug 2021*
  Cegep De La Gaspesie Et Des Iles, Montreal, QC

- *Information Technology (B.E-IT)*   *Aug 2015 - May 2019*
  LDRP Institute of Technology and Research, Gandhinagar, India

Projects

- ➤ **iNotebook React Web Application – Source Code**
  - **Tools and Technologies: React, NodeJS, Bootstrap, MongoDB APIs, ExpressJS, Mongoose, Thunder Client, JSON Web Token, Nodemon, bcrypt**
  - iNotebook is a single page and responsive **React** Application for managing personal notes on the **cloud** developed using **MERN Stack**.
  - Developed **Front-end** using **ReactJS, Bootstrap**.
  - Implemented **backend** like new user **creation**, Existing user **authentication** and **CRUD** operations on notes using **ExpressJS** and **Mongoose**.
  - Implemented data validation using **EcpressJS validator**.
  - Database is managed by **MongoDB**.
  - Developed different **Thunder Client** collection to **test** and manage **APIs**' endpoints responses.

- ➤ **NewsNest React Web Application - Source Code**
  - **Tools and Technologies: React, Bootstrap, NewsAPI, React Router, React Lifecycle**
  - NewsNest is a **responsive** web application developed using **ReactJS**, **Bootstrap** and **NewsAPI**.
  - User can easily read different categories' news on any device.
  - Developed different **components** like navbar, news, newsitem, loading to easily manage the application.
  - Implemented **Infinite scroll** functionality for the continues data delivery and implemented **react router** for the navigation.
  - Developed **top loading bar** using react loading bar package.

- ➤ **TextUtils React Web Application - Source Code - Visit**
  - **Tools and Technologies: React, Bootstrap, GitHub Pages, React Router**
  - TextUtils is a **responsive** web application which can be used to **manipulate** your text.
  - It also informs user about how many words and characters are there in your text and how much time a user needs to read the text.

- ➤ **Job Hunt: Android Application**
  - **Tools and Technologies: Android, Firebase, Java**
  - An online platform where job recruiters can post their job requirements and job seekers can apply through it.
  - Performed **UI/UX in Adobe XD**.
  - Developed **front-end** of application and rendered data from **API**.
  - Implemented **search and filter functionality**.
  - Recruiters can add and update job post, see total number of applicants and their profile whereas Applicants can update their profile, apply, or save it for later.
  - Implemented **notification** functionality.

Personal Skills

- Time Management and Organization
- Proficient Communication Skill
- Fast Learner and Detailed Oriented
- Good with Problem Solving and Analytics with Decision Making Skill
- Teamwork and Collaboration
